**Price:** \$110TTD

## Short Description

Universal Stick On Dashboard Phone Holder Magnetic Car Mount

## Description

- This magnetic car mount for cell phones is not bulky or space consuming at all. You no longer have to suffice for keeping your phone in the cup holder or dashboard, because a normal car mount gets in the way. This magnetic car mount sticks on a dashboard, thereby not blocking your windshield or Air Vent
- Navigation is extremely easy with this magnetic car mount. It can easily rotate, fix, or tilt to any angle that best assists the viewer of the phone.
- The magnetic technology is safe to use, and will not harm any smartphone. The carbon steel plates inside the magnetic car mount are ultra thin and designed in a way that it provides powerful holding power as well as absorbing magnetic instability. Along with being safe, it is also powerful, it attracts any phone to it quickly – this is the swift snap feature. The user can just bring the phone near the mount and it will take it easy, so the user no longer has to fuss about safe keeping their phone
